

# QUESTIONS FOR GROUP WORK

---

## 1. PANDEMIC EXPERIENCE

The pandemic has been an event that caught us unprepared.

Try to express what you went through, especially as a person who work in Cottolengo facilities, from a personal, relational and spiritual point of view.

- What critical aspects emerged?
- Which positive resources were put in place?

## 2. VULNERABILITY

Vulnerability belongs to the human condition and this time of pandemic has made it emerge in a more evident way.

- What effects does this awareness have on your relationships of care, education, profession, community etc?

## 3. A LOOK INTO THE FUTURE

We are called to be artisans of the future and to contribute to God's work:

- What expectations do you have in your area of work?
- According to you what initiatives (of mind, of heart, and of hands) can be put in place to make Cottolengo charism ever more alive?
- Which should be the priority in restarting?
